Attend a one-week materials science technology workshop – FREE!

ASM Materials Camp®-Teachers
Michigan Technological University
July 20-24, 2009

This week-long, hands-on, lab-based camp shows you how to use applied science and engineering techniques in the classroom.

This Camp is unlike anything you have ever done before. It is a refresher of core science principles and a way to make these principles relevant to students. At a time when many school budgets are tight, this camp will show you new ways to make science and math fun -- for little or no cost!

Program Fees: None—program includes lunch and supplies; transportation and other costs are your expense. Note: Housing will be provided to non-local participants.

Credit: 3 quarter credits available through the University of Washington for an additional cost of about $200.

Continuing Education Units: Four (4) CEUs will be provided.

Who should attend: High school general science, chemistry, physics, math and technology teachers; middle school science teachers.

Instructors: Two master science and technology teachers with considerable experience in materials science and technology course teaching at high school and middle school levels.

Typical curriculum: please visit
